Foundational Pharmacy Strategies | IT Solutions That Protect Data and Streamline Operations

Foundational Pharmacy Strategies partnered with Onsite Computer Consulting Services, Inc. to keep their IT systems reliable, secure, and efficient. Through responsive support and expert guidance, we helped them focus on their core business without disruptions, ensuring their operations run smoothly.

CLIENT: Foundational Pharmacy Strategies

INDUSTRY: Pharmacy benefit consulting / healthcare cost optimization

LOCATION: St. Charles, Missouri, USA

SERVICES: PBM consulting, contract management, trend tracking, wellness programs

About Foundational Pharmacy Strategies

Foundational Pharmacy Strategies provides consulting and management services for pharmacies, helping clients optimize operations, compliance, and patient care. Their work relies on accurate data management, secure systems, and seamless communication, making dependable IT support essential.

The Challenge

Foundational Pharmacy Strategies needed a partner who could provide responsive, knowledgeable IT support while respecting the organization's time and privacy. They wanted a team that could ensure smooth operations, minimize disruptions, and deliver solutions tailored to their specific business needs.

How Onsite Computer Consulting Services, Inc. (OCCSI) Helped

We provided comprehensive IT support and guidance to help Foundational Pharmacy Strategies operate efficiently:

- Delivered reliable, responsive support for all IT needs
- Maintained secure systems to protect sensitive client and patient data
- Provided knowledgeable guidance to streamline workflows
- Ensured solutions were tailored to the organization's unique requirements
- Respected time and privacy while working seamlessly with their team

By integrating closely with their operations, we enabled the organization to focus on delivering high-quality pharmacy services without worrying about technology issues.

THE RESULT

Foundational Pharmacy Strategies now benefits from:

- Reliable IT support that keeps operations running without interruptions
- Secure, well-managed systems protecting sensitive data
- Expert guidance tailored to their unique workflow and business needs
- A trusted IT partner who respects their time, privacy, and operational priorities
- Greater focus on core business goals, allowing staff to concentrate on delivering high-quality pharmacy services

With Onsite Computer Consulting Services, Inc. managing their IT, Foundational Pharmacy Strategies can operate confidently, efficiently, and securely, focusing on providing exceptional service to their clients.

What Foundational Pharmacy Strategies Says About Us

"Working with OCCSI has been a true asset to our organization. Their team consistently delivered reliable, responsive, and knowledgeable IT support that allowed us to focus on our core business without disruption. Ann and her colleagues were not only technically proficient but also incredibly respectful of our time and privacy—something we deeply value in a partner. I would confidently recommend OCCSI to any organization looking for a trusted and professional IT services provider."

— Christine Johnston, General Manager, Foundational Pharmacy Strategies
